Profile

Junior Frontend Developer with proficient knowledge in **HTML**, **CSS**, **JavaScript**, **Tailwindcss** and **React**, as well as **PHP** and **MySQL**. Seeking to utilize my technical and coding skills to contribute to successful web applications.

Projects

Personal Portfolio [🔗](#)

<https://abdelhamid99.netlify.app/>

Displaying my skills using React, ESLint, Tailwind, and Vite. It includes a brief introduction about me, my projects and the technologies I've worked with. You'll also find a contact form at the bottom and my social media links below it. Feel free to explore and connect with me.

QuickPizza [🔗](#)

<https://quickpizza99.netlify.app/>

This project showcases my skills using React, Redux, React-router, ESLint, Tailwind, and Vite. It's a webapp to order pizza, you can search, order and follow up with your order, but it's best to try it your self.

InfinityWeb - Landing Page for A Web Design Agency [🔗](#)

<https://infinityweb99.netlify.app/>

A landing page for a web design agency, implemented using vanilla JS and Tailwindcss. Showcases the company's ability to display outstanding but also simple design using modern CSS techniques.

Forkify - Webapp for searching and bookmarking recipes [🔗](#)

<https://forkify99.netlify.app/>

A webapp to search food recipes, where you are able to change servings and bookmark recipes. Implemented using vanilla JS and SASS and bundled by parcel.

Natours - Webpage for travel company [🔗](#)

<https://natours99.netlify.app/>

A webpage for a traveling company, where you can book different tours for wonderful places. Implemented using vanilla JS and SASS and bundled by parcel.

Other Projects:

- CodeWave - Landing Page for A Web Design Agency [🔗](#)
- Mapty - Webapp displaying map to mark activities [🔗](#)
- Bankist - Bank landing page [🔗](#)
